

Quooker®

THE BOILING-WATER TAP

Hotwater.ie

THE TAP THAT DOES IT ALL

Flex

The Quooker Flex is a combination of a boiling water tap and mixer tap. It incorporates a pull-out hose for extra reach in the sink. When the hose is pulled out, it only delivers hot and cold water, not boiling water.

The Flex has a round spout.

Finishes

Polished chrome, stainless steel and black

Filtered chilled & sparkling water with the CUBE
