

Exposa<sup>®</sup> at Galgorm Resort & Spa

Durable, aesthetically pleasing and an appealing alternative to  
concrete, traditional paving, patios, asphalt and loose gravel.

Hillsborough House

RTU is a market leader and premier supplier to many of Northern Ireland's leading architects, construction companies and builders. With a comprehensive product range including concrete, Exposa® and Ultraflo®, mortar, plaster and floor screed, RTU is the popular choice for the commercial, residential and self build markets.

Exposa® aggregate concrete offers a durable and aesthetically appealing alternative to concrete, traditional paving, patios, asphalt and loose gravel. This high-performance product delivers a durable and slip-resistant finish ideal for outdoor surfaces such as driveways, footpaths, promenades, town centres and pedestrian zones.

RTU are here to advise and guide you. Our construction knowledge, experience and commitment to first class customer service, as well as a signature product range, will give you peace of mind and make your home or construction project stand out from the crowd.

## THE BENEFITS OF EXPOSA®

### **Beautiful**

Create a visually striking surface using Exposa®. Our wide variety of rich colours and textures will provide a stunning finish in harmony with the surrounding landscape.

### **Durable**

Exposa® has a natural aggregate finish with the durability and structural integrity of concrete, designed to withstand heavy traffic and extreme weather conditions without deterioration.

### **Practical**

Combine an attractive natural surface with the beauty of a low maintenance finish. The unique characteristics of Exposa® inhibit the proliferation of weeds and moss.

### **Safe**

In addition to providing natural comfort underfoot, Exposa® provides a naturally slip-resistant finish with a continuous surface that reduces trip hazards.

### **Flexible**

Customise your design to create a bold or a subtle effect. Choose from a wide range of different finishes to shape your space - from ultra modern to rustic, Exposa® is the ideal choice for your project.

## RESIDENTIAL AND COMMERCIAL

The flexibility of Exposa® allows designers and architects alike to be as bold or subtle in their design as required. With a variety of colours and finishes, Exposa® allows you to shape your space to maximum effect whether straight, curved or anything in between.

When used together in one project, different colours of Exposa® work extremely well side-by-side to create a stunning effect. In addition, other materials such as cobble or paving stones can be positioned as movement joints or to form a border, thus adding even more design options.

## QUALITY

RTU operates a stringent quality control system which ensures our products comply with the relevant British and European Standards. Our computerised plant ensures a consistent quality product with full traceability with every batch.

We recommend that Exposa® is installed by an RTU approved installer to ensure quality workmanship and attention to detail that is required for the product to have the optimum aesthetic appeal.

## RECENT WORK

The selection of our recent work across residential and commercial demonstrates Exposa's® versatility and popularity. Various styles can be used throughout one project to complement and contrast each other or the surrounding environment.

Other materials such as cobble or paving stones may be positioned as movement joints or to form a border. This will create a stunning effect when combined with Exposa®.
