# No need to install unnecessary pipes, cold water only!

Also, replacement elements & parts are available.

Running costs are based on a rate of 20 cent per kilowatt hour (kWh) this can be lower depending on your electricity supplier.

The tap's power consumption is 2.5-3 Kilowatts.

Therefore, calculating costs of the tap is as follows:-

To run the tap for 1 hr = 3 kWh's X €0.20 = €0.60

This means the running cost of the tap is,

## 1 Cent Per Minute
