

Super Seal  
Window Systems

# Expand your horizons

*with our high quality sliding  
and slide folding doors*

# Choosing the right door for *your home*

Offering the opportunity to open up your living space and bring the outdoors inside, sliding and slide-folding doors provide a great many benefits to virtually any property. But which system will be best for you?

## *Slide Folding*

*The perfect way to integrate internal and external spaces*

Visofold doors glide effortlessly and have the option of folding back internally or externally with a wide choice of sash configurations. With a highly versatile functionality, they create uninterrupted views that maximize light.

### **Key features:**

- Creates uninterrupted views that maximize light allowing a nearly 100% opening aperture
- Opening inwards or outwards to make the most of any space, can be manufactured in a range of configurations
- Slim lines allowing for smooth and reliable use with highly versatile functionality that is both easy to operate and has an elegant finish
- Multiple door leaves that concertina to the side which can incorporate a 'traditional door'
- Multi-point locking mechanisms on main opening sashes with shoot bolt locks on floating mullions
- Available in a range of colour options, textured finishes and dual colour format, with differing colours inside and out
- Thermally broken aluminium profiles achieving U-Values up to 1.5 w/m<sup>2</sup>k

## *Sliding*

*Unobstructed views, contemporary styling and robust performance*

Our Visoglide doors combine the benefits of a large picture window, allowing light to flood in to an internal space, with an easy opening system. Offering clean aesthetic lines that will work in harmony with the character of your home, our sliding door offers the option of opening up an entire façade.

### **Key features:**

- Available in 2, 3 and 4 pane designs
- Double and triple track options allowing multiple sashes to move and stack behind each other
- Slim lines and discrete hardware creating a sleek finish
- Where situation allows, threshold can be recessed into the floor level without compromising on weather performance
- High security multi-point locking mechanisms on main opening sashes
- Available in a range of colour options, textured finishes and dual colour format, with differing colours inside and out
- Thermally broken aluminium profiles achieving U-Values up to 1.6 w/m<sup>2</sup>k
